

Shades is a design studio that converts innovative and creative ideas from paper to real properties. It was founded in 2015 as a result of a new vision for the future. By combining various of disciplines, such as exterior design, interior design & furniture design. we provide complete entities with better living conditions. We endeavor to enrich our reputation and success throughout our projects and our clients satisfaction.

Architecture

We turn our sketches into reality by providing the following architectural services; Conceptual and Schematic designs, Design development & Construction documentation

Furniture

We customize and design furniture to beautify your space as we believe that each piece of furniture can tell volumes of stories about who you are.

Interior

We create designs that transforms our clients' ambitions into elegant useful, and appealing human environments. We are specialized in all types of remodeling and renovation, and brand new projects as well .

Interior Consultation

We provide our clients with guidelines to help them imagine the whole spirit of their space, select the right materials finishes, and even the furniture .
